DETAILED ACTION

1. Claims 1-13 are pending in the present application.

Drawings

2. The drawings were received on August 9, 2006. These drawings are acceptable.

Allowable Subject Matter

3. Claims 1-13 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicants arguments filed August 9, 2006 are found persuasive. Regarding independent claim 1, the prior art of record fails to teach the following limitation: "identifying tracks of the logically represented volume that have changed since a last incremental backup operation by reading fresh data indications, (i) wherein each of the fresh data indications corresponds to a track of the logically represented volume and (ii) wherein a given fresh data indication is indicative of whether its corresponding track has changed since a last incremental backup operation; identifying files for incremental backup, the identified files comprising changed and unchanged blocks saved on a track deemed changed since a last incremental backup operation; and incrementally backing up the identified files from disk media to sequential storage media". Independent claims 6 and 10 parallel the limitations of independent claim 1, and are therefore allowed for similar reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
